

**Ute Mountain Ute Tribe  
Water Pollution Prevention Permit  
2026-1  
SOLV Energy**

**Foxtail Flats Solar Project Construction and Storm Water Pollution Prevention  
Plan Implementation**

The Ute Mountain Ute Tribe Environmental Programs Department, acting under its authority to implement anti-degradation procedures in the Tribe's *Water Quality Standards for Surface Waters of the Ute Mountain Ute Reservation*, hereby permits the following activities as **Water Pollution Prevention Permit 2026-1**:

1. Construction of Foxtail Flats Solar project in compliance with the Foxtail Flats and Four Mile Mesa Solar Storm Water Pollution Prevention Plan, prepared for and authorized by U.S. EPA Region 8.

This Water Pollution Prevention Permit is authorized with the following conditions, referencing sections of the Storm Water Pollution Prevention Plan:

- a. Section 4.5 & 4.12 SOLV Energy will provide data for any chemical additives to be used for dust suppression if non-amended water quantity is insufficient for dust suppression. Use of said chemical additives is not authorized until approved in writing by the Tribe's Environmental Programs Director.
- b. Section 4.8 SOLV Energy will coordinate with the Ute Mountain Ute Tribe Environmental Programs Department to develop a seed mixture to be used for soil stabilization and interim reclamation purposes. Point of contact for seed mixture approval is the Tribe's Environmental Programs Director.
- c. Section 5.5.3 SOLV Energy will prepare a stand-alone Spill Prevention Controls and Countermeasures (SPCC) Plan for all chemicals stored on site. This Plan will be implemented, updated and maintained. The SPCC plan and subsequent updates will be

provided to the Tribe's Environmental Programs Director within 30 days of preparation and development. If required after review, the Tribe may request it be revised.

Additional Permit Information

This permit may be revoked due to noncompliance, as identified in writing to the permittee by the Tribe's Environmental Programs Director. The permit is only valid if signed by the applicant.

**A 14 day review and comment period is hereby initiated for the public as of March 27, 2026. The Stormwater Pollution Prevention Plan may be reviewed at 520 Sunset Blvd, Towaoc, CO. For more information contact Scott at [sclow@utemountain.org](mailto:sclow@utemountain.org).**
